Wilson and Marshall To Lead
Ticket.

At Baltimore, Tuesday afternoon, Woodrow Wilson, Governor of New Jersey, was nominated for the Presidency by the Democratic National Convention. The nomination was made on the forty-sixth ballot. The deadlock that had prevailed for nearly a week was broken when the name of Oscar W. Underwood was withdrawn by Senator Bankhead, of Alabama. Then followed the withdrawal of Foss and the final vote, when Senator Stone refused unanimous consent to making the nomination unanimous after releasing the Carl delegates. The forty-sixth ballot, which was a mere formality, showed: Wilson 990, Clark 94, Harmon 12, absent 2.

After the nomination of Gov. Wilson the convention adjourned at 3:39 p. m. until 9 o'clock.

Gov. Thomas R. Marshall, of Indiana, was nominated for Vice President on the third ballot after the convention reassembled. Others voted for were Senator Chamberlain, of Washington, and Gov. Burke, of North Dakota.

Schedule For Week.

Paris will be at home the remainder of this week and on Sunday will meet Mt. Sterling in a double bill. Richmond will be the attraction today and the Lawmakers Saturday. Although Paris lost two games to the Colts yesterday they were both fine contests and the local fans should give their support toward sustaining the good club that now represent this city.

Five Killed When Dirigible Explodes.

Sailing out over the Atlantic ocean under perfect control and in view of several thousand persons, the great airship Akron, in command of Melvin Vaniman, with a crew of four men, exploded when more than a thousand feet in the air early Tuesday and shot down into the water, a tangled mass, carrying to their death the daring navigator and his companions. Death is believed to have come instantly to the five men.

Bourbon Men in New Company.

The Fayette Tobacco Warehouse Company, the only warehouse in the city of Lexington remaining out of the combine, has let the contract for a addition to the present plant which will cost approximately \$55,000.

The company was organized in 1909 and the entire stock in the firm is held by prominent citizens of Fayette, Woodford, Bourbon and Scott counties, most of whom are large tobacco growers. The past year's sales by the company aggregated more than 5,000,000 pounds.

The stockholders in the Fayette Tobacco Warehouse Company are all well known and influential men. Dr. S. H. Haley, of Fayette county is president of the firm; Mr. Chas H. Berryman, vice president and Mr. Clay Goodloe, general manager. The other stockholders are: Messrs. Henry L. Martin, Colonel John C. Burnett, Dr. B. F. Parry and W. E. Simms, of Woodford county; R. B. Hutchcraft, Reuben Hutchcraft and Henry S. Caywood, of Bourbon county; Reuben Offutt, of Scott county, and C. H. Berryman, Clay Goodloe, John Webb, S. H. Haley, Robert Latham and David Reed, of Fayette county.

Superintendent Compiles Report

Miss Mabel Robbins, County Superintendent of Schools, of Bourbon county, has compiled her annual report, which she will submit to the State Superintendent, at Frankfort.

The report shows that there are 2,223 white children outside the city of Paris of the school age and 1,391 colored. Enrollment, 1,300 white, 833 colored. Average attendance, 93 white, 497 colored. The percentage of attendance based on the enrollment is 64 for white and 59 colored, which is an increase of nearly two percent over last year.

In the private schools of the county there are 570 pupils and 36 teachers and the amount of money expended annually in maintaining the schools of the county amounts to nearly \$130,000. The average cost of teaching a child is \$6.13, while the average cost of teaching children who attend school each day is over \$16.03, being an increase of \$4.03 over last year. The reason for the increase is that schools this year were taught for a full term of nine months.

There were nineteen graduates from the county schools the term just closed.

Acute Indigestion Successfully Treated.

Many cures have been reported. A little tablet called "Digestit" has been found to be certain quick relief for acute indigestion. Many cases have been reported where instant relief resulted from its use. Brown's Digestit is the successful treatment for all stomach disorders. It relieves indigestion instantly and cures dyspepsia. Sold on positive guarantee -50c.

Should Watch the Dog.

A law became effective June 10, that will be of interest to motorists in Kentucky, as it makes it possible for persons having dogs injured by automobiles to institute suit for damages in civil actions against owners of the offending cars. The bill was backed by the Kentucky Humane Society, which has sent out word that it will assist anyone having such a claim in prosecuting suits.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all dealers.

Changes in Forest Boundaries.

President Taft has just made considerable changes in national forests in Montana, Arizona, Utah, and California through Presidential proclamations modifying the boundary lines. By these changes nearly 275,000 acres of land are eliminated from the forests, about 65,000 acres are added, and about 55,000 acres are transferred between the two forests while a new forest is created by the division of an old unit into two.

The result is to bring down the total gross area of the national forests to about 187,490,000 acres, of which nearly 27,000,000 acres are in Alaska. To a considerable extent, however, the reductions, as far as land actually owned by the Government is concerned, are apparent rather than real, owing to heavy alienations in the tracts eliminated. Some 22,000,000 acres of the national forest gross area are not owned by the Government.

The high water mark of the National forest gross area was reached in 1909, when the forest boundaries included over 194,000,000 acres. It was then realized, however, that in making the examinations on which the Presidential proclamations creating the forests were based the work had been too rapid to insure in all cases the best boundaries. Sometimes land which should have been included was left out, while at other times land was taken in which was not best suited to forest purposes.

Consequently a complete overhauling and rectification of the forest boundaries was planned, and has been going on ever since. By successive proclamations President Taft has eliminated nearly 11,000,000 acres, while he has added about 4,000,000 acres.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

At this very moment the news item of the most importance relates to the crop conditions throughout the country. During the past three weeks, according to the reports, the crops have been making satisfactory progress.

The belief is that the July returns as to condition will show a better average in all the principal crops. Even the wheat crop, now that harvesting has begun, is proving better than anticipated.

The average cotton crop is still disputed, but the condition is satisfactory.

The country is assured that the agricultural interests are prosperous and the investors, the bankers, the merchants and the railroads have a feeling of relief.

The great corn crop is yet in a doubtful condition. It is two or three weeks late in the planting, but heat and moisture during July will fully make up that drawback.

On the whole, at the beginning of July, the country is justified in anticipating harvests, if not up to the maximum in all kinds, at least harvests above the average, carrying abundant prosperity to all related interests.

Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. Is it headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its care. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are sold.

—Lightning killed two very fine Jersey cows for J. R. Letton and Judge Smith Hays in Clark county last week.

—Mrs. Richard T. Lowndes, of Danville, sold last week to Mr. Roswell Eldridge, of New York, the two-year-old chestnut filly Regilla Lloyd by Rex Peavine, dam Lady Mac, by Chester Dare, for one of the largest prices that has been paid for some years. The consideration for the beautiful mare was \$1,000.

—Winchester Democrat: "Mr. J. W. Rash, of the Wyandotte neighborhood, brought to the city Saturday a freak chicken a few days old, with four well developed legs and four wings. The youngster is alive and apparently in the best of health, as it hops about, and seems as if it will develop into a wonderful fowl for speed, both on the wing and on foot."

—The news comes from the blackberry districts that the berries are ripening and the indications are that the scarcity will make them rather high. In years past the same reports have been sent out with the view of boosting the price, even when the berries were abundant. Unless there is foundation for the report that the briars were killed by the cold weather there has been enough good weather to produce an exceedingly large crop.

—Only 386 hogsheads of tobacco in the Burley Society pool of 1909 remain unsold, and as this will be disposed of this week the work of preparing for the division of the remainder of the money of the pool among the growers will begin next week, and a full settlement of the entire pool will be made as soon as the accounts and checks of the individual members of the pool can be made out. Before September 1 all of the members of the pool will probably have received their money. These were the conclusions reached at a meeting of the Executive Board of the Society, held in Lexington. It was ordered that the unsold tobacco be sold at once on the Louisville and Cincinnati markets.

Cyclist Chased by Lions.

Two motor cyclists, Mr. and Mrs. Macdonald, the former a magistrate at Mzimba, while returning from the Zomba (Central Africa) coronation ceremonies, were chased for five miles by two lions, which showed no fear of the noise made by the engines, and galloped after the motor cyclists with evident determination to kill them.

The lions were finally outdistanced, and the riders, suffering greatly from nervous strain, reached their home in safety.—Livingstonia News.

Expensive Soda Water.

The highest price ever paid for a bottle of soda water was given in London recently when one that was a relic from the wreck of the Royal George was auctioned off and brought \$134.

The Royal George went down in 1782, which made the soda water 120 years old. Two-thirds of the liquid remained in the bottle, the inside of which was discolored and thickly incrusted with sea salt. The bottle was of the same shape as those used for aerated water at the present time, but the glass was of a deeper green and slightly heavier.

Soda water was invented in 1767, and the relic was bought by a soda water manufacturer for advertising purposes.

Rural Carriers Hold Annual Session.

The sixth annual convention of the Kentucky Rural Letter Carriers' Association convened at the court house in this city, Wednesday.

The meeting was called to order at 1 o'clock, p. m., by the president, Mr. J. T. Rhorer, of Wilmore. Invocation by Mr. Edward F. Bennett. This was followed by the roll call of officers and the reading of the minutes.

The President appointed the following committees:

Creditors—Edward Bennett, E. D. Murrell, S. M. Mosley.

Resolutions—J. W. Wood, A. M. Collins, J. Q. Vandever.

Auditing—E. D. Murrell, B. Y. Rhorer, J. K. Page.

Mileage and Per Diem—Edward Bennett, E. B. Murrell.

Resolved, That we request the Postoffice Department to issue an order that patrons shall stamp their mail, except in extreme cases of emergency.

Resolved, That since Postmasters and carriers are not allowed to furnish list of their patrons, yet all "Mail Order" houses do secure such lists, which are very incorrect, therefore we request the Postoffice Department to require all persons or firms to submit their mailing lists to the Postmasters and carriers for correction.

Resolved, That we heartily thank the Postoffice Department for transmitting the resolutions of the last National Convention of the carriers to the house postoffice committee, and respectfully request that they continue to do so, and ask the carriers to so conduct themselves as to merit such recognition at the hands of the department.

Resolved, That we may be free to communicate to our Congressman on any subject.

Resolved, That we extend our thanks to our many friends in Congress, and especially the Postoffice Committee of the House, for their kind consideration of the Rural Carriers.

Resolved, That we express our thanks to W. D. Brown in behalf of the carrier body for his efforts in our behalf, and we would like to see every carrier take the "R. F. D. News."

Resolved, That all carriers who carry locked pouch mail to intermediate postoffices on their routes be paid the same.

Resolved, That we are in favor of our county officials adopting some method of improving the roads to make them more substantial during all seasons of the year.

Resolved, That we are in favor of Federal aid on post roads.

Resolved, That we endorse the following legislation as before Congress now: Postoffice bill, carrying with it a provision to expend \$15, \$20 and \$25 per mile on the rural route out of the public funds.

Resolved, That the Department require all boxes to be situated conveniently and of uniform height.

Resolved, That we endorse all legislation of the Kentucky Legislature's last session on the Good Roads question.

Resolved, That we extend our thanks to the citizens of Paris for their kind and courteous treatment and

entertainment and especially to Mr. Joe Farris, Jailer, for his kind services rendered and use of court house during our stay.

The following officers were elected for the ensuing year: A. M. Collins, President, Livia, Ky.; W. P. Feat, Vice President, Harrodsburg, Ky.; Louis M. Cook, Secretary-Treasurer, Nicholasville, Ky.

Johnson Gets Decision Over Flynn.

Jack Johnson still retains the title of heavyweight champion of the world, for on yesterday afternoon at Las Vegas, N. M., he was awarded the decision over Jim Flynn, the Pueblo, Col., fireman, after nine rounds of rushing fighting, on the claim of Johnson of a foul.

Referee E. D. Smith gave the decision to the black pugilist after repeated complaints entered by Johnson of the white man "butting."

From the first it was apparent that Flynn was more of a match for the black pugilist than Jim Jeffries two years ago. The white man centered his force in pounding the negro into submission by repeated blows in the stomach and kidneys. In the first four rounds Johnson had the best of the battle, landing frequently on the face and head.

Flynn worked the butting game in the clinches. The sixth, seventh and eighth rounds were in Flynn's favor, and he crowded the smoke to the ropes frequently landing heavily on the stomach of the negro. In the ninth and final round he forced him to the ropes and was pounding vigorously when the referee stopped the fight.

Oil From Grape Stones.

Grape stones yield an oil similar to those of the olive. They are used in the manufacture of soap and for lubricating and lighting. France alone, it is estimated, could yield from 8,000,000 to 10,000,000 gallons of this oil per annum.

Island of Walcheren.

It is quite worth while to stay a few days at Flushing, when landing from England, thoroughly to inspect the island of Walcheren. The island itself (says the "Autocar") is a most beautiful corner of Holland, possesses two important towns, well worth seeing, and is particularly rich in costume, unfortunately dying out in so many parts of the country. Some parts of Flushing are very old, as it was a strongly fortified port in days gone by—the headquarters of the Dutch fleet.

It was from this town that Admiral de Ruyter, a native of Flushing, defeated the English fleet off the Thames in 1667, and advanced up the river to London, creating a desperate panic among its inhabitants.

The Dutch people are very proud of their admiral, and possess almost as many statues and pictures of him as we do of Nelson. The country is purely agricultural, and as the farmers go for dairy farming a good deal, one sees numbers of spotlessly clean black and white cows everywhere, generally left in charge of a small boy, or two or three little girls in charming white caps, and quaint, much gathered black frocks.

DEATHS.

INGELS.

—Mr. Wilson Ingels, aged about 72 years, died suddenly at his home on Fifteenth street, Wednesday evening, about 6 o'clock.

Mr. Ingels was one of the oldest citizens in Paris, and has lived here all his life, being a member of an old and representative family, who for many years have been identified with the life of the community.

Last winter Mr. Ingels' health began to decline, but later he seemed to improve, and Wednesday morning appeared to be in his usual health, chatting pleasantly with his neighbors about the political situation. About noon he went into the house and complained to his daughter of feeling ill, saying his head hurt. She was assisting him to lie down when he fell over unconscious. Medical aid was hastily summoned, but he never regained consciousness and died a few minutes after 6 o'clock, death being due to an amic poisoning.

Mr. Ingels is survived by one daughter, Miss Fannie Ingels, of this city, who is a member of the faculty of Caldwell College, Danville, and one son, Mr. James Ingels, of Chicago. Two brothers, Mr. Ben Ingels, of Lexington and Mr. Boone Ingels, of Carlisle, also survive him, and a number of other relatives. The deceased was a staunch member of the Christian church, and was in his accustomed place last Sunday morning.

The funeral will be held this afternoon at the residence, conducted by Rev. W. E. Ellis, assisted by Rev. F. J. Cheek. Burial in Paris cemetery.

The pall-bearers will be: D. L. Redmon, W. A. Wallen, Dr. D. S. Henry, W. C. Dodson, Jaynes Savage and B. R. Adcock.

BEDFORD.

—A telegram was received in Paris Tuesday announcing the sudden death of Mr. Hillary Bedford, at Hobart, Oklahoma, where he has made his home for a number of years.

Mr. Bedford, who was a native of Mr. Bedford, who was a native of Bourbon county, went West several years ago. He was a bachelor, and a son of the late Benjamin F. and Ellen Buckner Bedford, who resided at their farm on the Winchester pike.

Deceased was born August 15, 1835, and for years resided with his brother the late A. H. Bedford, who once owned the farm on the Lexington pike now the property of Mr. J. H. Thompson.

Mr. Bedford has a number of relatives living in Paris and Bourbon county. It is not known whether or not the body will be brought to Paris for burial.

Two Hostile Empires.

Everywhere the human soul stands between a hemisphere of light and another of darkness; on the confines of two everlasting hostile empires, Necessity and Free-will.—Carlyle.

Genius Simply Concentration. If there be anything that can be called genius, it consists chiefly in ability to give that attention to a subject which keeps it steadily in the mind, till we have surveyed it accurately on all sides.—Reid.

MATRIMONIAL.

SNELL—WALLINGFORD.

—Miss Vertna Snell, of this county, and Mr. Wm. Wallingford, of Louisville, were united in marriage at the residence of the officiating minister, Rev. W. E. Ellis, in this city, Tuesday afternoon at 2:30 o'clock.

The wedding was very quiet. They were accompanied by the bride's sister, Miss Mary Frederica Snell, and the bridegroom's brother, Mr. Ira Wallingford, only members of the two families being present.

The bride was attired in a traveling suit of blue with hat to match and carried white sweet peas, while her sister wore her graduating dress of white marquise with picture hat and carried pink sweet peas.

The bride is the oldest daughter of Mr. and Mrs. William Snell, who recently moved to Bourbon county from Lexington and has a host of friends who will be surprised to hear of her marriage.

The bridegroom is the son of Mr. J. Wallingford, formerly of Fleming county, and is a young man of sterling worth, being an architect and is very much admired by all who know him.

Immediately after the wedding the bride and groom left for Louisville, where they were given a reception by Mr. Wallingford's parents. They will go to housekeeping in a bungalow on Crescent Hill, Louisville, which has just been completed for the bride.

—A marriage license was issued Wednesday to Mrs. Georgia Monson and Mr. J. W. Kimball.

He Agreed.

"What you need," said the wordy medie in his ponderous way, "is an enlargement of your daily round, a wider circle of activity." "Mebby that's right," said the patient. "I'm a bareback rider in a one-ring circus." —Cleveland Plain Dealer.

Keeps Him Changing.

"A Mormon must have to be a lightning change artist."

"In what way?"

"It must be something of a job to have the right wife's picture in his watch every time."

Inevitable Result.

"I am surprised to hear that Dubble has broken down," said Stubbs. "He used to have a splendid constitution." "Yes," said Wiggletope, "but he began amending it." —Harper's Weekly.

Trouble Heiresses Have.

"We heiresses have many rivals for our hands." "Yes," replied Miss Cayenne, "you must feel as if the pathway of life were filled with pocketbook snatches."

Model Husband.

Our ideal of a model married man is one who would rather cut out a midnight supper than to miss working in the garden before breakfast.—Galveston News.

Buy Out Lexington Laundry. Mr. M. H. H. Davis, of this city, closed a deal yesterday morning by which he becomes the owner of the Wright Laundry, in Lexington. The purchase was made from the owners of the plant, Messrs. W. H. and T. M. Funk, the latter a partner of Mr. Davis in the firm of Davis & Funk, proprietors of the Bourbon Laundry in this city. The price paid was private.

Mr. Davis will give the management of the laundry in Lexington his personal supervision, but will continue to reside in Paris, where he will retain his interest in the local concern which will be in charge of Mr. Funk.

Mr. Davis will go to Lexington each morning on the interurban car, returning to his home in this city each night.

Three Injured Near Millersburg.

While returning from the funeral of Mr. R. T. Chancellor, about 5 o'clock, Tuesday afternoon, near Millersburg, Mr. R. T. Chancellor, Miss Florence and Lillian Chancellor were thrown from a buggy and painfully injured when their horse became frightened at an automobile. When the horse became frightened, the young ladies accompanied by Mr. J. B. Jefferson, of Maysville, were compelled to drive between the automobile and a delivery wagon. The buggy collided with the wagon and the occupants were thrown to the ground. They were picked up and taken to the office of Dr. W. B. Huffman, where their injuries were attended. They were taken to their home. Miss Lillian Chancellor sustained a broken wrist and a sprained right arm, while Miss Florence Chancellor was cut on the chin and also about the back of the head and neck. One tooth was knocked out. Mr. Jefferson was scratched, but not otherwise injured.

Why Take Treatment That Is Doing You
No Good, When a Few Days under the care
of Dr. Dolle Will Show You How Easy It
Is to Cure These Diseases When the Proper
Treatment Is Administered.

Have you treated for months and years, and
been disappointed until you think that you can
not be cured? You, no doubt, all this time have
been treated by inexperienced doctors who had
neither sufficient knowledge nor experience to
know how to treat you.

These are the diseases of which I have
cured so many, justly giving me the repu-
tation for cures of which I am so proud.

Blood Diseases, Skin Diseases

I will give you treatment that will in a few
days cure all rash, spots and every sign and
symptom. My treatment gets the poison out of
the system instead of driving it in like ordinary
treatments. I cure blood diseases and skin dis-
ease so they cannot come back.

Varicose, causing aching or pain in
groin or back, Nervousness, Weakness,
Loss of Vitality, Lack of Ambition

My treatment cures what you should
have and what you have had to be cured
right. Only one visit is required. You do not
cutting and you suffer no pain nor trouble. All
signs disappear in a few days.

Nervous Troubles, Lost Vitality

My combined treatment for these troubles so
common among those who have become weak and
worn out, who have caused it by folly, dissipation
and carelessness, is remarkably good. My treatment
heals quickly in months until then have taken it.
It overcomes weakness, nervousness, pain in
back, lack of energy, ambition and strength—it's
just the treatment I have found so effective in
treating such diseases.

Kidney and Bladder Troubles
are scientifically cured by me. My methods im-
mediately benefit you, and the majority of cases
I cure from physicians and specialists who
failed.

Piles, Fistulae—I can cure you so
quickly and easily that you will be surprised. I will give you just
the result and cure you are looking for without
a surgical operation.

Acute Diseases—Itching, Burning
remedies sudden cure. My treatment does every
symptom and cures in a few days. It is scientific
—that's the only sure way to be cured so it will
not come back.

You can take my treatment without a
cent and you will be surprised. I know
that I can give you new life, new hope, and can
restore you back to health and happiness. I
know that every man will pay after I have elim-
inated every trace of disease from his system.

Microscopic and analytical urinalysis FREE.

I have written to all the physicians in the
hands of every suffering man in this country. I
will send you a copy, free, if you will write me at
once the disease for which you desire treatment.

Hours 9 to 4; Sundays, 9 to 1 p.m. Evenings,

MANY EDUCATORS MEET

KENTUCKY EDUCATIONAL ASSOC-
IATION HAVE GREAT GATH-
ERING IN LOUISVILLE.

Attendance is Three Times That of
Previous Year—Membership
Greatly Increased.

Louisville, Ky.—The annual meeting of
the Kentucky Educational Association
was held in the First Christian
church in this city, the sessions lasting
two days. It was by far the greatest
educational gathering ever held in
Kentucky and one of the greatest
conventions of school people ever held
south of the Ohio river. For weeks
the association, together with kindred
organizations, have been urging a
large attendance at this meeting and
were rewarded by seeing more than
three times as many present than at
their last annual gathering.

The delegates listened to addresses
by Dr. P. P. Claxton, United States
Commissioner of Education; Charles F.
Thwing, president of Western Reserve
University; Newell Dwight
Hills, pastor of Plymouth church,
Brooklyn; David Starr Jordan, president
of Leland Stanford University, and
a great many of the educational
notables of their own state.

The Last Day.

Louisville will get the convention of
the association every year. Following
the vote on the permanent head
quarters, a committee composed of R.
H. Whittinghill, J. A. Carnagy and G.
H. Money was appointed to change the
constitution and by-laws to conform to
the action of the convention.

The association more than trebled
its membership during the last year,
according to the report of Secretary
Vinson. The membership has reached
a total of 3,184. The treasurer, G. H.
Money, reported enough money in the
treasury to pay the expenses of the
meeting and have some left over.

The Bosworth road amendment to
the State Constitution, providing for
the working of convicts on the public
highways, was endorsed unanimously
and the association members were in-
structed to aid in having it put
through. In addition to endorsing this
amendment a committee, composed of
Miss Mattie Reed, of Jeffersontown;
H. H. Cherry, of Bowling Green, and
B. M. Holbrook, of Morehead, was ap-
pointed to aid a committee from the
State Tuberculosis Commission in
stamping out the white plague.

Union Wine Prize.

The John B. McFerran prize of \$50
in gold to the county having the
largest aggregate mileage was won by
Union county. Forty-three teachers
attended the meeting, with an aggregate
mileage of 9,417. It was announced that Paducah, which had
sixty-five school teachers, has the largest
membership in the association, every
teacher belonging to the association.

The session, at which the officers for
1912-13 were elected, was attended by
a crowd that packed the immense audi-
torium. Every seat in the gallery
and on the main floor was filled, and
many stood in the rear of the audi-
torium.

R. L. McFarland, superintendent of
the Owensboro schools, was elected
president. He was opposed by N. C.
Hammick, of Union county, and J. W.
Ireland, of Stanford.

Dudley H. Starns was elected first
vice-president without opposition when
Mrs. Stewart declined to run after being
nominated.

A. L. Crabbe, of Paducah, was nom-
inated for second vice-president, but
the collegiate faction scored by electing
Miss Kate M. Christian, of Lexington.
Miss Christian is a graduate of
Columbia University, and has done
good work in the Lexington schools.

No opposition was shown to the election
of Miss Ella B. Shawnee, of
Washington county, to the office of
third vice-president.

Thomas W. Vinson, of Frankfort,
was elected to the office of secretary
for the third consecutive three-year
term.

Barksdale Hamlett, State Superin-
tendent of Public Instruction, of
Frankfort, and H. H. Cherry, Bowling
Green, were elected to the board of
directors. They succeed J. W. Welch,
of Henderson, and J. P. W. Brouse, of
Somerset.

Badge For Mrs. Wilson.

While Second Vice President Gifford
was presiding, the association
voted to give Mrs. Wilson a special
badge in appreciation of her work
during the year. The motion was
made by Superintendent T. J. Coate,
former president of the association.

The first address of the morning
was delivered by F. C. Button, of
Frankfort. He reviewed the present
condition of rural schools and detailed
his plans for the future.

The teaching of social ethics by the
teachers was the topic of a talk by
Dr. Elizabeth Campbell, of Cincinnati,
O. She discussed the family life of
the average American, speaking of it
as the greatest gift of civilization and
as the greatest of all social problems.

BLAZE AT DEFOE.

New Castle, Ky.—Fire started in an
unknown way in the general store of
James Jessie at Defoe, in this county.
The building was destroyed, and along
with it the two-story residence of Wes-
ley Hall. Mr. Hall also owned the
storeroom. The room above the store
was occupied by Defoe Lodge of Odd
Fellows and its paraphernalia was lost.
Mr. Hall's loss is \$4,200 and his insur-
ance \$2,000. Mr. Jessie's loss is \$3,500
and his insurance \$2,000.

ARMY BILL IS PASSED

AMENDMENTS AFFECTING THE
GENERAL STAFF OMITTED.

Some Members Think Bill Is Still
Objectionable to the Pres-
ident.

Washington.—The house again
passed the army appropriation bill in
the same form as last February, be-
fore the senate amendments brought it
under the veto of President Taft.

The amendments affecting the
general staff of the army, one of which
would have legislated its chief, Maj.
Gen. Leonard Wood, out of office, and
the provision for a commission to de-
cide upon the number and location of
army posts, were left out.

Representatives Prince and Mann
of Illinois, and Kahn, of California, led
in opposition to the measure.

They contended that the bill still
contained much legislation objection-
able to the president.

Former Speaker Cannon warned the
house that the president might again
veto the bill.

NO AMALGAMATION.

Lynn, Mass.—Charging bad faith on
the part of General Secretary and
Treasurer Michael J. Tracey and Organ-
izer Arvid Orlando, of the United
Shoemakers of America, Charles L.
Baine, secretary of the general execu-
tive board of the Boot and Shoe
Workers' union, issued a statement in
which he declares that the amalgama-
tion of all shoe unions under one head
has not sufficient merit to warrant
submitting it to the consideration of
either a special or regular convention
of his organization. The statement
conveys the decision of the general
executive board of the Boot and Shoe
Workers' union in connection with the
proposition submitted to the confer-
ence which was called some time ago.

LEGISLATIVE PROGRAM.

San Francisco.—A detailed legisla-
tive program in behalf of married
women was submitted by William
Hard, of New York, to the 11th bienn-
ial convention of the General Fed-
eration of Women's Clubs. "The
wife's earnings should belong to her,"
he said. "There is just one case in
which a wife should be charged with
her husband's support—when he is
infirm and unable to work. Husband
and wife should have precisely equal
rights in the custody of their chil-
dren, to the services and earnings of
their children and to the management
of their children's property."

DIES IN DEPOT.

Ravenna, O.—Mrs. W. R. Hill, 48
years old, of North Sycamore street
went to the Erie depot with her guest

Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardui. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardui, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles of different kinds. What other treatments I tried, helped me for a few days only."

TAKE CARDUI The Woman's Tonic

Don't wait, until you are taken down sick, before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment.

You would always keep Cardui handy, if you knew what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardui has helped over a million women. Try it.

Preventing the Souring of Milk in Hot Weather.

During the hot weather of the summer months many farmers have much trouble with sour milk. This causes much loss, not only to the farmer who keeps one or more cows for family use, but especially to the dairyman who retains his milk or ships it to a dealer in the city. The dealer usually pays only one-half price for sour milk or refuses to accept it at any price, thus entailing heavy loss to the producer.

Good sweet milk can be produced and delivered in prime condition to the customer in the hottest summer weather. The writer has for five years shipped milk from the farm to Louisville—a distance of 57 miles—the milk being three hours on the train in transit, and has not a drop of sour milk during that time. The amount of these shipments ranged from 60 to 90 gallons a day, and was on a strict business basis, every gallon being sold at a good margin of profit. During about half of this time the milk was shipped in 8 and 10 gallon cans, the remainder of the time in quart and pint bottles.

Good sweet milk depends on two items, cleanliness and a cold temperature. To secure these the following rules should be observed:

Have the cow's udder clean before milking. A clean damp cloth can be used for this purpose and can be carried in the pocket of the milker. Only a few seconds are required to wipe the udder off immediately before beginning to milk the cow. In our experience this simple expedient has worked wonders.

Be careful not to allow hairs, dirt or dust to fall into the milk. They are laden with germs. Germs cause the milk to sour. The greater the number of germs the quicker the souring will occur. A pail with a small opening will be very helpful in keeping out dust and other dirt.

Use the milk pail for no other purpose than milking. Some dairymen use it for watering the horses and slopping the hogs, and then wonder why the milk sours.

Cool the milk immediately by running it over a milk cooler, which can be bought for \$5 to \$7, or by immersing in cold spring or well water. The animal heat must be removed before placing in cans or bottled for delivery or shipment. If necessary to hold the night's milk for shipment the next morning it should be held at a low temperature. Cold springs or well water in a wooden or metal tank of proper size to hold shipping cans may be used for this purpose. If running spring water is at hand, this will serve admirably. In some cases the milk or cream may be lowered into a cistern and kept cool until time for shipment. If care is exercised, milk can be kept sweet without ice, but a supply of ice is very desirable.

Another important point. Wash all vessels carefully. Examine frequently in the angles to see that no accumulation of yellow casein material collects, as this will certainly cause rapid souring. After washing, scald all vessels with boiling water and place in pure fresh air until ready for use. If exposed to the sun, so much the better, as sunlight is the best germ killer and purifier.

Milk produced in the manner outlined will be of the best quality and will bring the highest market price. Such milk is always in demand and if used for buttermaking it furnishes the raw material from which high quality butter can be produced. If all the butter produced on Kentucky farms were made from milk handled this way, hundreds of thousands of pounds of poor butter which each year goes into our markets at a very low price would be replaced by a gilt-edged article, which would sell at an attractive price, and would add many thousands of dollars to the annual profits of Kentucky farmers.

McCann Held to Grand Jury.

Policeman Ben McCann was arraigned in the police court in Lexington Tuesday on the charge of maliciously shooting and wounding Sheriff Dan Scott several weeks ago. He waived examining trial and was held by Police Judge Southgate under bond of \$600 to await the action of the grand jury. McCann, who had been under bail of \$1,000, fixed by a Magistrate, immediately after the shooting, at once furnished the new bond and was released.

Your Dollar Buys More

When you buy a Studebaker-E-M-F "30" or Studebaker-Flanders "20" you get more for your money, dollar for dollar, than in any other car built.

There may be other good cars—but what is their price? That's the rub. If they really are good cars, they necessarily cost more because comparatively few are built. Some poor cars, you know, are high priced too, so that the dealer can fool you by cutting the price. What a car is really worth, not what it costs, should be your standard.

The Studebaker Corporation has the largest and best automobile factories in the world. We could build and sell any competing car today for less money than its present price. In your Studebaker-E-M-F "30" or Flanders "20" you get full value, because the biggest factories and the best brains in the industry build these cars.

Hunter Declares Beasts Shake the Ground.

Experience of American Who Killed Seventy-One in South Africa—Slay Their Prey at Night.

New York.—Stewart Edward White, who brought home a record of 71 lions killed in South Africa, says that visitors to the zoo have no idea what the real roar of that animal sounds like. He calls "the menagerie roar" at feeding time only a gentle hint of what a wild lion can achieve in the vocal line.

"A pack of lions will often deliberately drive game into narrow ravines or cul-de-sacs where the killers are waiting," he says in the American Magazine. "At such times the man favored by the chance of an encampment within five miles or so can hear a lion's roar.

"Otherwise I doubt if he is apt often to get the full voiced, genuine article. The peculiar questing cough of early evening is resonant and deep in vibration, but it is a call rather than a roar. No lion is fool enough to make a noise when he is stalking.

"Afterward, when full fed, individuals may open up a few times, but only a few times, in sheer satisfaction, apparently, at being well fed. But when seven or eight lions roar merely to see how much noise they can make—as when driving game, or trying to stampede your oxen on a wagon trip—the effect is something tremendous.

"The very substance of the ground vibrates; the air shakes. I can only compare it to the effect of a very large, deep organ in a very small church. There is something genuinely inspiring about it; and when the repeated volleys rumble into silence, one can imagine the veldt crouched in a rigid terror that shall endure.

"The only sure thing about a lion is his originality. He has more exceptions to his rules than the German language. Men who have been mighty lion hunters for many years, and who have brought to their hunting close observation, can only tell you what a lion may do in certain circumstances. Following very broad principles, they may even predict what he is apt to do, but never what he certainly will do.

"In general, then, the lion frequents that part of the country where feed the great game herds. From them he takes his toll by night, retiring during the day into the shallow ravines, the brush patches or the rocky little buttes. I have, however, seen lions miles from game, slumbering peacefully atop an ant hill. Indeed, occasionally a pack of lions like to live high in the tall grass ridges, where every hunt will mean for them a four or five-mile jaunt out and back again. "He needs water after feeding, and so rarely gets further than eight or ten miles from that necessity. He hunts at night. This is as nearly invariable a rule as can be formulated in regard to lions. Yet once, and perhaps twice, I saw lionesses stalking through tall grass as early as 3 o'clock in the afternoon. This eagerness may or may not have had to do with the possession of hungry cubs.

ARMY MULE EATS ITS TAG

Steamer Tied Up Until Officers Learn Destination of Animal With Appetite Like Goat.

Seattle, Wash.—An innocent looking young mule of the army type delayed the steamship Northwestern for Prince William sound ports for an hour here while an army of clerks and dock employees vainly tried to discover to whom the animal was consigned.

A cheerful but slow witted colored boy led the animal to the docks and left it while he watched the busy scene. When the mule was sought out the freight handlers discovered that the freight tag which had been tied to the halter had disappeared. A tell-tale bit of string dangling from the mule's mouth showed the tag had been chewed up.

"Boss, he's done et up de place whar he was goin' and Ah dismember de name," said the colored boy plaintively.

After an hour of search the mule was started on its journey with a shipping tag firmly fastened round its neck, out of reach of the mule's teeth.

MAN FASTS FOR 46 DAYS

Atlanta City Man Reduces 32 Pounds, Eats Meal, Falls Ill, Sent to Hospital.

Philadelphia, Pa.—John Watson of Atlantic City fasted 46 days to reduce his weight, and then tried to enjoy a meal. The other day Watson walked into detective headquarters and asked to be sent to hospital. He had weighed 146 pounds, which he thought was too much. He consulted doctors. They told him to fast, he said. He fasted. Now he weighed 114 pounds, and felt he had accomplished enough. So he ate a real meal. Then he walked into headquarters and asked for assistance. He was sent to the Philadelphia hospital.

No Lady Killer.

M. Durand de Bellefond de Gournay, who a few months ago started the simple folk of Coutances by appearing in a brilliant uniform covered with decorations and managed to swindle the local trades-people of hundreds of pounds, cut a sorry figure when he appeared for trial at the assize court today.

His only defence is that he swindled because he wished to create an impression on a woman with whom he was in love. The judge replied: "Don't talk to me of making an impression on the fair sex. You are far from ugly," and then sentenced him to six years imprisonment.—Paris correspondence London Daily Mail.

Indian Pitcher Coming to Paris.

Chas. Bomosh, the Chippewa Indian who was a few weeks ago reported to have been signed by the Paris Club, and who since has been sought by the local management, will probably report to Paris some time next week. Bomosh has been visiting independent ball, and now located at Lehigh, Pa., where transportation has been wired him.

Bomosh, who is a full blooded Chippewa, was a student at Carlisle University. He is under the care of the government and the local club will be held responsible for his conduct and safety.

A letter received from the Indian Agency by President J. W. Bacon, is to the effect that the proper protection must be given the Indian and all efforts used to encourage abstinence from drink, and that there shall be no effort on the part of any member of the club to induce him to drink or take part in any demonstration that may lead to riots, or endanger his life.

The rain Tuesday afternoon prevented the game scheduled between Paris and Richmond on the Richmond grounds.

Wednesday the Pioneers defeated Paris by a score of 10 to 1. The game was filled with sensational plays, one of which was a long running catch by Chapman, who caught the ball after falling and while standing almost on his head. The Pioneers hit Ludwig hard and counted eleven safe drives off his delivery, while Black, for the Richmond team was almost invincible.

The Fourth of July games pulled the locals down in percentage for yesterday two were dropped to the Colts. The contest yesterday afternoon resulted in a defeat for Paris by a score of 3 to 2. The game was played on the Lexington grounds.

The morning game was played on the local grounds and was one of the prettiest witnessed here this season. Harold and Turner opposed each other on the mound and for four innings it was a battle royal. Lexington had a man on third in the second and a score was prevented only by a close play at the plate.

The game should have gone to Paris and this would probably have been the final result had it not been for a "bone" which was pulled in the fifth after two were down. Vicker reached first on a chance when Turner was run down between the bases, when Ellis dropped a short fly into the right field which should have been an easy out but Dunlap not tried to cover too much territory. This play was responsible for the two runs which the Colts secured.

In their half of the fifth the locals threatened to tie up the score and Dunlap partly redeemed himself by driving in the only score of the Bourne by a timely two-bagger.

The locals were never dangerous after that, but a hit in the last inning which would have tied up the contest was not forthcoming.

Harold pitched excellent ball throughout and worked himself out of several tight places in which position he was placed by the loose fielding of his teammates.

MAN STUMBLES ON RICHES

Discovery of Clear Lake (Ariz.) Field Result of Chance—Sees Gold in Bowlders.

Clear Lake, Ariz.—T. Ollie Phillips was a poor mining prospector less than a year ago. When he was not roaming over the mountains he made his home at Bisbee. Recently he was paid \$200,000 for an undeveloped gold and silver claim situated in this new camp. W. S. Small and J. H. Kniffen, who purchased the property from Mr. Phillips, have in turn just disposed of it to a syndicate of Boston and Springfield (Mass.) men, headed by Smith Bros., the reported consideration being \$500,000. The new owners have taken steps to organize a company to operate the mine. It is claimed there is enough ore in sight to justify the erection of a 250-ton mill. It was by chance that Mr. Phillips discovered the vein which has brought him a fortune. He was making a trip through this section less than twelve months ago, accompanied by a photographer, whose mission it was to get some views of the famous Apache Box Canyon. One day, while the photographer was off taking pictures, Mr. Phillips aimlessly walked through the picturesque canyon. His trained eye caught sight of gold in a bowlder that was lying in the bottom of the gorge. He examined other bowlders and found gold in all of them. Keeping the discovery to himself, he remained with the photographer until the latter had finished his work. He then returned to the canyon and began a systematic search for the vein from which the bowlders had come. He succeeded in finding it upon the wall of the canyon and staked out his claim.

Are You FEEDING**\$20 to \$25 Hay?**

Are you losing a large percentage of your CORN PLANT, that would beat any priced Hay, if placed in a SILO?

Early Buyers

A prominent feeder, in buying his fourth Silo, says: "Owing to the short hay crop, and the results we secure in Silage, we need another one."

And oftentimes the hot weather that burns out pasture or shortens the hay crop will make a corn crop.

secure advantages in material, price and other ways—the Silo question should be settled before corn planting. 100 ton Silo pastures 25 head of cattle 6 winter months, the cost being about one quarter a rectangular barn.
